

Week 2 EDA Deliverables

01_Comprehensive_EDA_Tables.txt

This table summarizes key insights obtained from the dataset, including monthly application counts, top opportunity programs, and the most common student majors. It serves as the foundation for the visualizations.

02_Monthly_Application_Trends.png

This chart shows how the number of applications changed over time, helping identify growth patterns and seasonal variations.

03_Monthly_Trends_By_Category.png

This visualization compares application trends across opportunity categories.

01a_Comprehensive_EDA_Tables (Summary Table)

The table below presents the key figures underlying the visualizations in this report: monthly application volumes, the ten most common academic majors, and the ten most popular opportunity programs.

Monthly Student Applications Received

Month	Applications
2022-10	20
2022-11	20
2022-12	20
2023-01	30
2023-02	40
2023-03	130
2023-04	90
2023-05	190
2023-06	390
2023-07	290
2023-08	760
2023-09	620
2023-10	330
2023-11	180
2023-12	660
2024-01	2400
2024-02	1800
2024-03	350

Top 10 Student Demographics by Academic Major

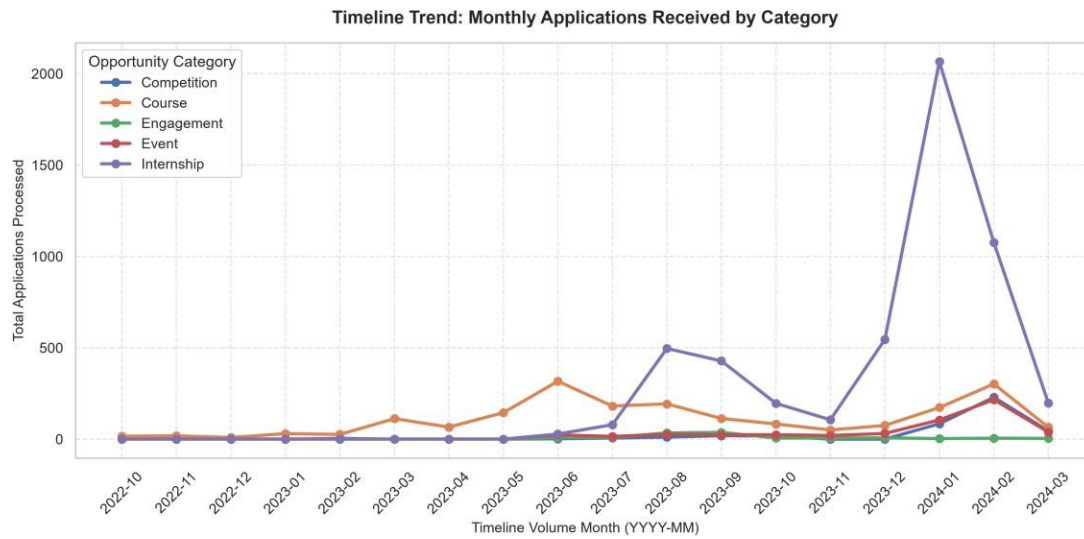

Rank	Academic Major	Number of Students
1	Information Systems	2150
2	Computer Science	1100
3	Health Data Science	370
4	Cyber Security	330
5	Computer Information Systems	230
6	Computer Science and Information Systems	200
7	Computer Science and Engineering	190
8	Data Analytics	180
9	Public Health	140

Rank	Academic Major	Number of Students
10	Computer Engineering	110

Top 10 Most Popular Opportunities by Student Enrollment

Rank	Opportunity Program	Applications
1	Career Essentials: Getting Started with Your Professional Journey	1400
2	Data Visualization	950
3	Project Management	830
4	Health Care Management	780
5	Digital Marketing	560
6	Data Visualization Associate	540
7	Business Consulting	470
8	Project Management Associate	460
9	Innovation & Entrepreneurship	410
10	CPR/AED Certification	380

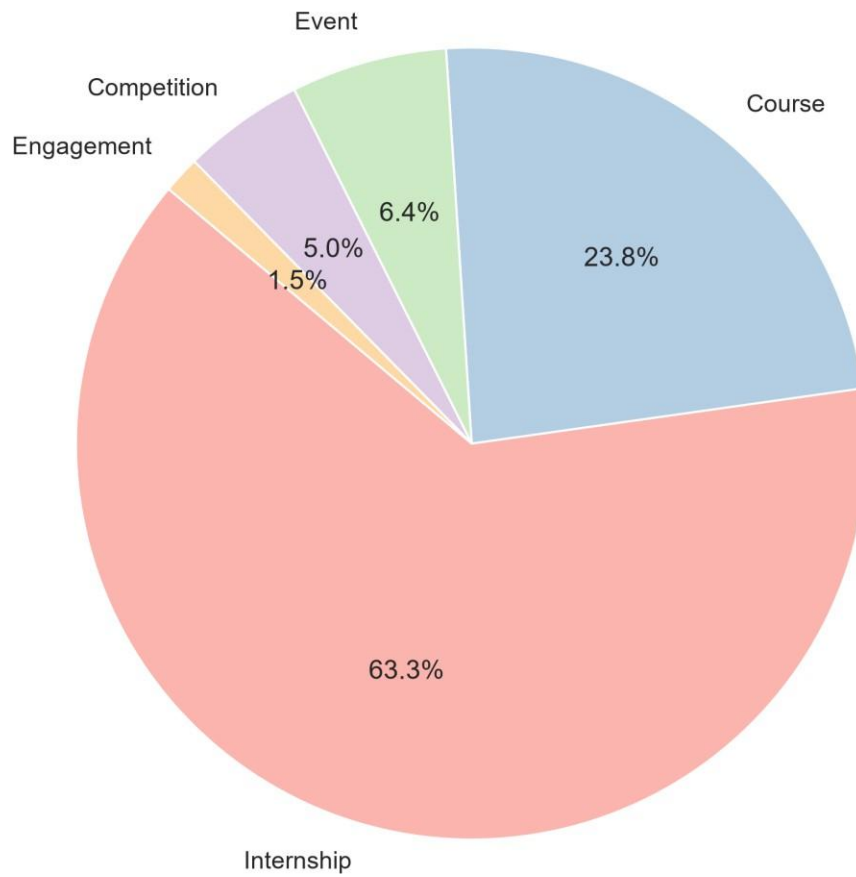

Note: Figures are approximate values read from the corresponding charts in this report (02_Monthly_Application_Trends.png, 06_Top_10_Academic_Majors.png, 07_Top_10_Opportunity_Programs.png). For exact figures, refer to the source file 01_Comprehensive_EDA_Tables.txt.

04_Opportunity_Categories_Distribution.png

This pie chart illustrates the proportion of applications across opportunity categories.

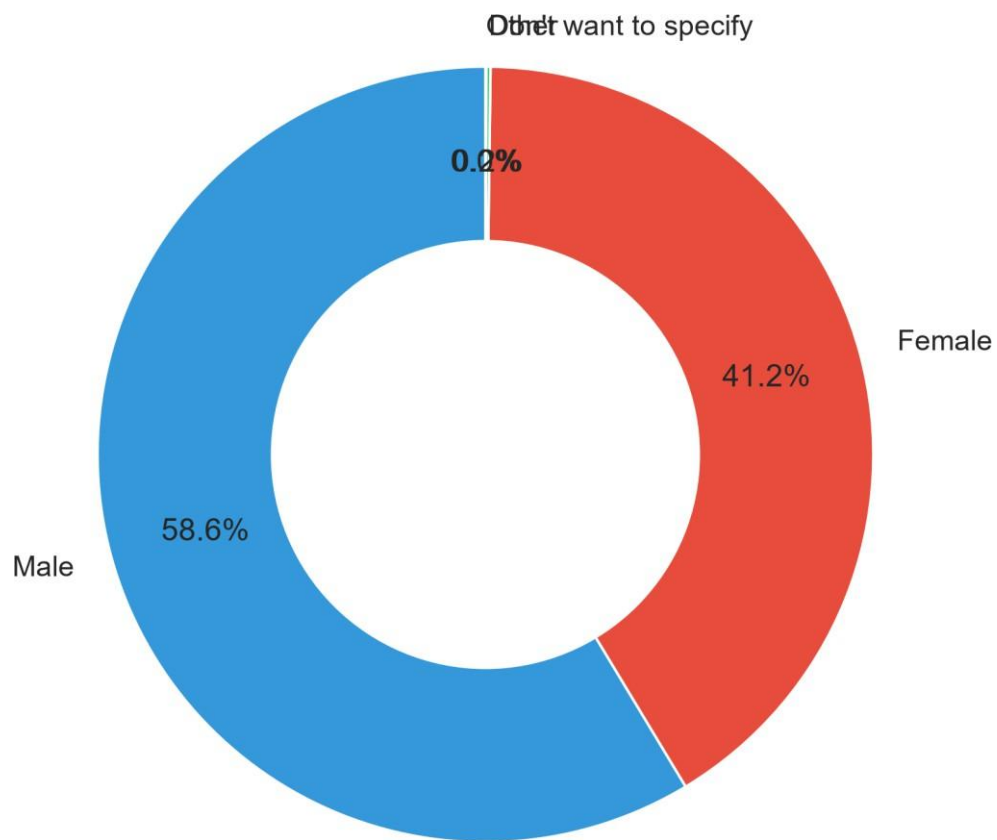

Proportional Mix of Opportunity Categories

05_Gender_Distribution_Donut.png

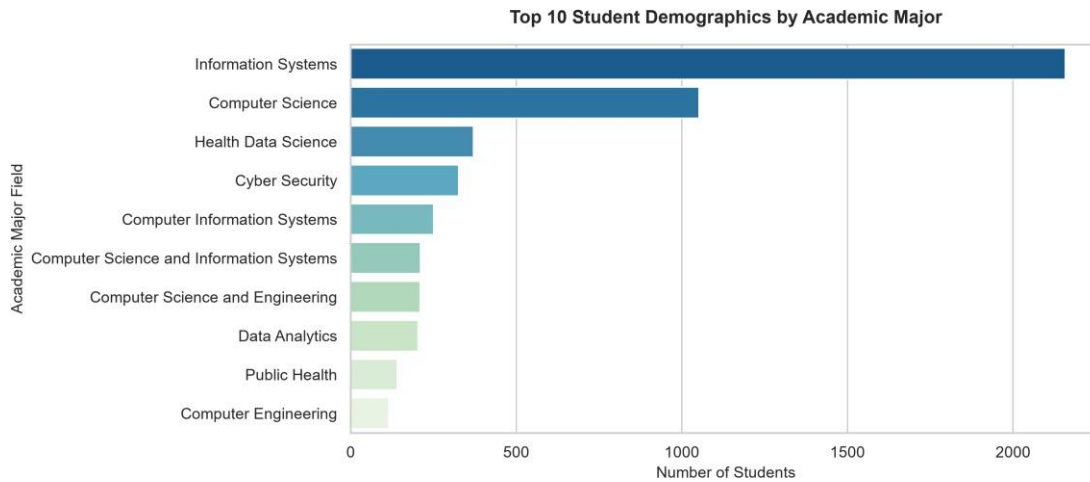

This donut chart represents the gender distribution of applicants.

Platform Gender Metric Breakdown

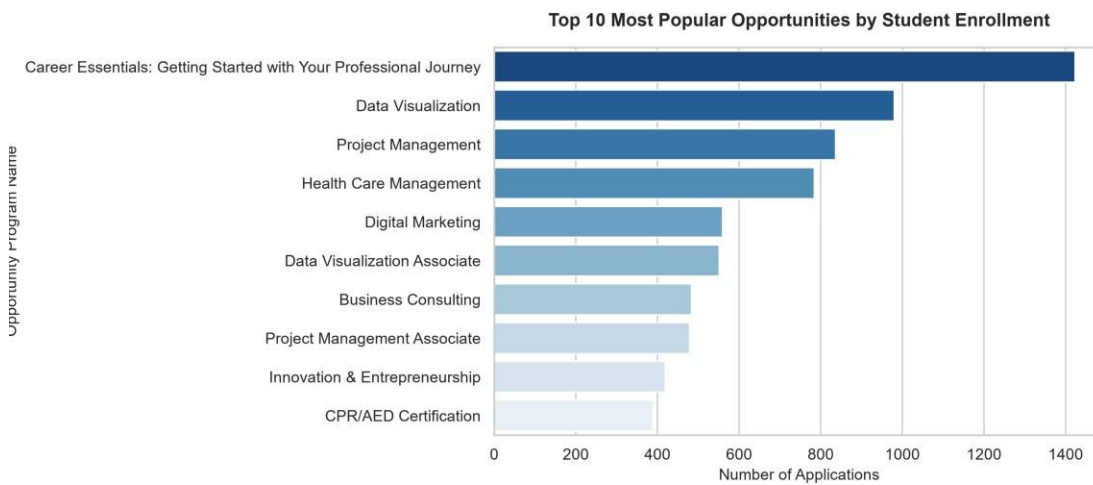

06_Top_10_Academic_Majors.png

This chart displays the ten most common academic majors of applicants.

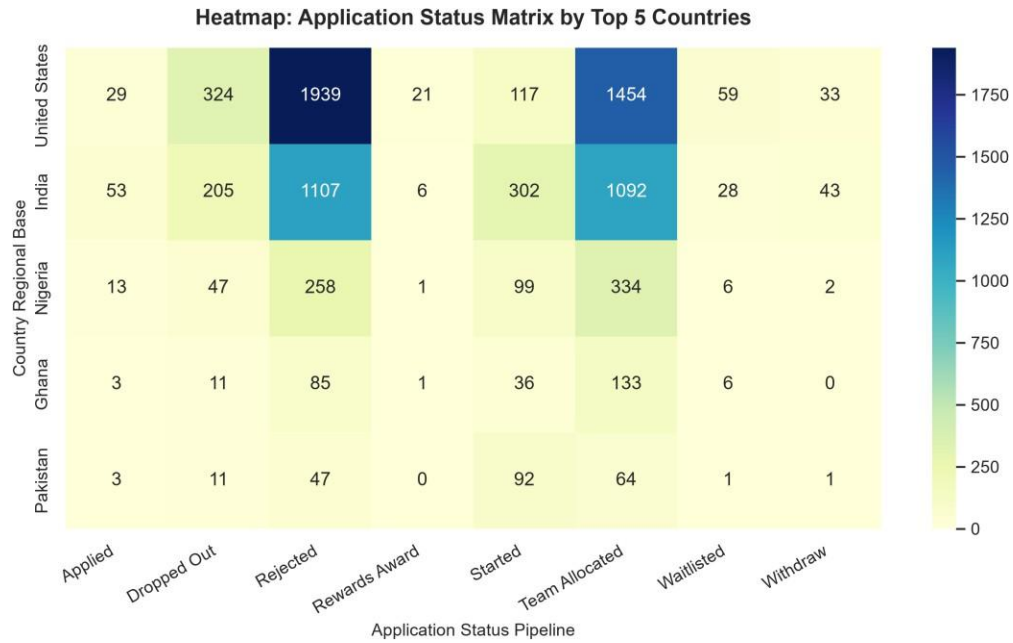

07_Top_10_Opportunity_Programs.png

This figure highlights the ten most popular opportunity programs.

08_Crosstab_Heatmap.png

The heatmap visualizes the relationship between two categorical variables using color intensity.
